PROFESSIONAL SUMMARY

Results-driven Software Engineer with over 5 years of experience across Netcracker Technology and Blue Yonder. Azure Fundamentals (AZ-900) certified professional specializing in high-performance cloud architectures, backend API development, and enterprise integrations. Proven track record of architecting scalable Microservices, securing platform ecosystems with OAuth, and resolving critical production incidents to optimize workflows. Collaborative team player with experience working in external environments such as Production, Pre-Production, and Mirror.

EXPERIENCE

Software Engineer

Blue Yonder

November 2023 – Present

Hyderabad, Telangana

SIAM and BYLink | *Azure Cloud (Functions, Logic Apps, App Insights, APIM etc.), C#, Python*

- Automated enterprise ITSM workflows by developing a real-time synchronization pipeline between ServiceNow and Jira, successfully orchestrating over 300 daily bi-directional updates. Leveraged Azure Logic Apps and Jira Automations to instantly translate support requests into Agile User Stories, completely eliminating manual syncing and significantly reducing cross-team communication delays
- Spearheaded OAuth-based authentication for the enterprise integration platform, strengthening API security through token-based access and standardized authorization controls across diverse customer ecosystems.
- Resolved a critical P1 issue in the Service Integration and Management (SIAM) gateway by architecting Python FastAPI microservices to replace unstable legacy RPA bots — expanding secure attachment capacity from 300MB to 1GB (Salesforce to ServiceNow) and 12MB to 2GB (ServiceNow to Salesforce).
- Led the full-cycle integration of the Xactly enterprise system — building automated pipelines for data migration, validation, and order construction — in partnership with Enterprise Data Platform (EDP) and Sales teams, cutting manual operational effort by 70%.
- Administered Microsoft Dynamics 365 Business Central across Production and Sandbox environments, configuring 10+ core business entities and building 5+ custom operational reports to enable data-driven stakeholder decision-making.

Junior Software Engineer

Netcracker Technology

July 2021 – November 2023

Hyderabad, Telangana

COLT Technology | *Java, Maven, GIT, SQL*

- Participated in the development of an order management application that receives basic order details from the customer portal in XML format and orchestrates the order by verifying the availability of resources and other necessary information to deliver the optimal solution to the Customer.
- Understanding different types of orders and their creation in NC UI (TOMS) as well as via SOAPUI Tool
- Adapted and improved the existing application according to the customer requirements and ensured the smooth and error-free completion of the order process. Debugged and resolved any issues that occurred during the order orchestration.

Telefonica O2UK | *Java, Springboot, Apache Camel, RabbitMQ, Apache Kafka, SQL*

- Developed and maintained the TBAPI application, a middleware solution that enables seamless integration between the customer-facing interface and the Netcracker product suite, a comprehensive platform for digital transformation.

Intern

Netcracker Technology

January 2021 – July 2021

Hyderabad, Telangana

- Evaluated and monitored the performance and functionality of various APIs that connect the TBAPI application with external systems and services
- Optimized and expanded the existing APIs and their performance, ensuring high-quality and reliable data exchange between the TBAPI application and other systems

TECHNICAL SKILLS

Cloud & Serverless: Microsoft Azure, Function Apps, Logic Apps, App Insights, Log Analytics, Storage Accounts, Service Bus
Languages: Python, Java, C#, SQL, JavaScript, HTML/CSS
Frameworks & Libraries: FastAPI, Spring Boot, Dotnet, Spring, Hibernate, Bootstrap
Developer Tools: Visual Studio, Git, Docker, Maven, VS Code, IntelliJ, Eclipse

CERTIFICATION

Microsoft Azure Fundamentals

AZ-900

September 2025

EDUCATION

CMR College of Engineering and Technology

Bachelor of Technology in Computer Science

Hyderabad, Telangana

July 2017 – July 2021

Sri Chaitanya Jr. Kalasala

PCM (Physics, Chemistry, Maths.)

Hyderabad, Telangana

May 2015 – April 2017

Air Force School, Begumpet

CBSE Board - Xth

Hyderabad, Telangana

April 2015

PERSONAL INFORMATION

Nationality: Indian

Date of Birth: 11th February 1999

Hobbies: Playing Cricket and Badminton, Gardening, going to the Gym

Languages Known: English, Hindi, Telugu.

Address: VayuNagar Colony, New Bowenpally, Secunderabad, Telangana, 500011.
